

Technical Data Sheet

Rescue Trade Bed-Set

Basic UDI-DI: 426072773RT-BEDSET7J

Rescue Trade Disposable Blanket – 200 g

Item: RTEDPWB200

Description and Application

The disposable patient blanket is intended for short-term single use in healthcare facilities, such as hospitals, ambulances, patient transport and nursing homes, and provides a physical barrier against the direct transmission of potentially infectious germs to the patient.

It also increases comfort and well-being during the patient's stay or during transport.

Material and Characteristic

- Filling: Polyester 36g/m²
- Outer Layer: 2 Layers PP-nonwoven, 30g/m²
- Weight: approx. 200 grams
- Size: approx. 190x110 cm
- Individually hygienically and space-savingly packed in polybags

Packaging Information

• Unit:

 = 80 pcs/ctn

 = 20 ctn/Pallet

- Carton Size: approx. 60x40x40 cm
- Net Weight Ctn: approx. 16 kg
- Gross Weight Ctn: approx. 17 kg

Additional Information

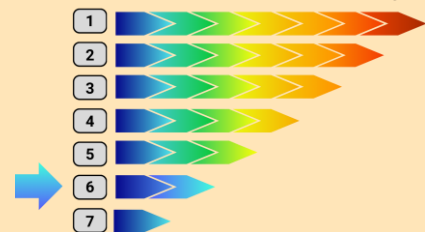

MD Medical Device Class I according to EU Regulation 2017/745 MDR

- GTIN Carton: 4260727730093
- GTIN Pieces: 4260727730710

- GMDN-Number: 60823
- FDA-CFR Code: §880.6060

Thermal Resistance
according DIN EN ISO 11092:2014-12^A:
 $R_{ct} = 0,0307 \text{ m}^2\text{K/W}$

Rescue Trade Thermal Rating

This is an internal classification based on measured thermal resistance (R_{ct}) values. It is intended for internal reference only and does not represent an official or legally recognized rating system.

Comfort Index: comfort
