

Technical Data Sheet

Rescue Trade Transfer Sheet

Basic UDI-DI: 426072773RT-TRANSFER6S

Rescue Trade Disposable Sheet

Item: RTEUBT2290GR

Description and Application

A disposable patient transfer sheet (slide sheet) minimizes friction and/or shear when transferring a patient in healthcare facilities, such as hospitals, ambulances, patient transports and nursing homes. A friction-reducing transfer sheet contributes to the reduction of risk of injury to the patient associated with manual handling.

Do not use for carrying.

Material and Characteristic

- Color: blue
- Size: approx. 220x90 cm
- Sheet: 100g/m² blue PP + 25g/m² white PE + 13g/m² tissue
- Absorbent Core: 105g pulp + 45g sap + 18g/m² tissue + 18g/m² PP non-woven
- Individually hygienically and space-savingsly packed in polybags
- 12 Handels

- Load capacity up to 250 kg (short-term loading)
- Suitable für use in operating rooms – Tested according to EN 13795-1
- Absorbency with water according to ISO 11948-1: 14,734 l
- Absorbency with saline according to ISO 11948-1: 4,826 l

Packaging Information

- Unit:

= 16 pcs/ctn

= 28 ctn/Pallet

- Carton Size: approx. 60x37x49 cm
- Net Weight Ctn: approx. 9 kg
- Gross Weight Ctn: approx. 10 kg

Additional Information

MD Medical Device Class I according to EU Regulation 2017/745 MDR

- GTIN Carton: 4260727731267
- GTIN Pieces: 4260727731250

- GMDN-Number: 37163
